**Subject:** Wide Wall Manhole Rings / Flow Controller Approval  
**Attachments:** Widewall PDF.pdf; 2008-11-12 Easi-Flow Chamber.pdf

Steve

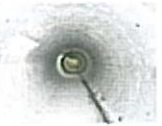

Further to our telephone conversation yesterday and numerous emails regarding the approval of FP McCann products by NWL, please find the attached email as discussed which has been copied to all the relevant framework design/contract partners. This email references the two products we have been discussing over the past few weeks and is a statement of NWL's acceptance of their use on both NWL capital and developer schemes. The two products are; the wide wall manhole rings and the Easi Flow Chamber (see attached), the reason for this email is due to the position of NWL in not issuing letters of approval for products which I fully understand. I would like to thank you and Martin for your help with this matter.

Regards

**David Williams | Business Development Manager**
